Pimples

STARTERS FOR THE BROOKLYN HANDICAP-OTHER CONTESTS.

The legitimate racing season in this State will open to-day at the course of the Brooklyn Jockey Club, and the famous Brooklyn Handicap, about which there has been so much talk and speculation, will be decided. Only mud horses will be prominent, as the track must be very heavy. The chances of all the candidates have been so fully canvassed that it is not necessary to go into details. In the opinion of this writer the fight at the finish will lie between Hanover and The Bard, both elever in the mud, and Hanover will win. These two reality outclass the others. Neither is at his best two really ontolass the others. Neither is at his best yet. Neither has hard work enough. But most of he others in the field are in a similar plight and class may carry them through. If the writer are fully satisfied that The Bard had all his speed and strength of last May he would prefer him to Hanover, for The Bard has an advantage at the weights, as he is a year older than Hanover but is in at the same weight-125 pounds. But The Bard suffered for months last autumn from a wasting disease and almost died. Can he ever be the horse he was a year ago? Yet his trainer thinks well him. So he may press Hanover hard.

Kingston is not good in mud, and Duke of Bourbon may win the first race, Sam Harper, jr., second. Dry Monopole who romps in a heavy track, should

win the second race, Bessie June second. The Expectation Stakes should fall to Captain Brown's Buddhist, a well-seasoned colt, with the Dwyers' Servia second.

The last two races are selling affairs, which may be worth locking at but not betting on.

MACBETH WINS THE DERBY. GALLIFET SECOND-A SURPRISE AT LOUISVILLE

-THE WINNER'S RECORD.

Louisville, May 14.-Macbeth II. won the Derby by a gth, Gallifet second and White third. Time-2:38 1-4. The course was deep in dust, the weather cold and dreary.
Odds against the winner 8 to 1. Gallifet was the favor-

After one false, The Chevaller (Lewis) got off first the others well up. Coming into the stretch out of the chute, Col. Zeb Ward led by two lengths, Alexandria sec-ond, The Chevaller third, Macbeth fourth, Gailifet fifth and Autocrat sixth. Passing the stand Alexandria was in the lead, Gallifet second. Chevalier third and the rest bunched. Up the backstretch Zeb Ward dropped back. Gailifet set the pace, followed, with a gap of two lengths, by Macbeth, The Chevaller, White, Autocrat and Alexandria in the order named. Rounding into the stretch, Macbeth moved forward like a mighty one, taking the lead, Covington handling him beautifully. McCarty on Gailifet was second and whipping hard, White third, the rest strung out. Macbeth easily retained first place to the wire, passing under first by a full length, without a touch of the whip, and looking ready to go snother quarouch of the whip, and looking ready to go anoth

Gallifet was second and working hard and badly pumped out, a length and a quarter in front of White, the others full three lengths behind. Withers rode White. Macbeth is a magnificent looking brown gelding and won the race in a style that places him up with the best in the land. It was stated after the race that Hankins, the land. It was stated after the race that Hankins, his owner, had won \$70,000. It was a great victory for the Chicago stable. As an after consideration, it is rather astonishing that odds of eight to one were obtained against astonianing that duta to regard the bound. As a Derby candidate he ran second in the Merchants' Stakes at Memphis, Little Minch winning in 2:10. He was beaten at Nashville in the Troubadour Stakes by Cruiser, Emperor of Norfolk and Volante, and also by Leo H. in another race at the same place. Poteen beat him at Lexington in the Distillers' Stakes, he running second and the time being 2:08. He ran second to the Chevaller in the Phoenix Hotel Stakes. His excellent performance to-day causes a suspleton that his recent defeats were due to circumstances which he had no control.

COLLEGE CHEERS ON THE HARLEM. COLUMBIA STUDENTS TAKE THEIR SWEET-HEARTS TO SEE THE CLASS-RACES.

The Hartem River presented an interesting appearance yesterday when the Columbia College students, leaving their books and studies, devoted the afternoon to a friending rivalry among themselves on the water. It was the secasion of the annual suring regards of the college, and as the Harvard-Columbia 'Varsity race at New-London the heave deland of for this year, more was made of the s been declared off for this year, more was made of the scal ruces than ever before, handsome prizes being given to the winning crews.

'89 got the start with '91 close behind her, but '90 gradually worked up, and at the end of a quarter of a mile the three crews were abreast. Little by little '90 reached ahead and '89 fell behind while the excitement on the boat rose to fever pitch. ""Ray for '90!" "Go in '89!" "Just see to fever pitch. ""Ray for '90!" "Go in '89!" " Just see how '91 pulls!" The cries made much confusion in the efforts of the students to encourage the different crews. As the mile '90 showed clear water to '91, while the juniors were far in the rear. The crowd at the boathouse could not tell which class was which, and as '89 was the general favorite, it was thought there that hers was the second crew until the finish, where '90 won in 10 minutes and 11 seconds, and '91 came in 2 seconds later, with '89 two lengths behind.

TAMMANY'S FIGHT AGAINST TRUSTS.

ATTORNEY-GENERAL TABOR HEARS ARGUMENTS ON THE SUGAR REFINERIES COMPANY.

Attorney-General Tabor sat yesterday in the chamber of Common Pleas to hear arguments by repre sentatives of Tammany Hall on the testimony brought out by the Senate Investigating Committee concerning the Sugar Refineries Company. General Roger A.
Pryor, ex-Senator Thomas F. Grady, George H.
Forster, Thomas C. T. Crain and W. W. Cook appeared. Forster, Thomas C. T. Crain and W. W. Cook appeared for the petitioners, Hugh J. Grant, Richard Croker, John Cochrane, Thomas F. Gilroy and Bernard F. Martin. What they demanded was that the Attorney-General "institute an action in behalf of the people of the State to have it adjudged that the Sugar Refinof the State to have it adjudged that the Sugar Rein-eries Company is guilty of usurping or unlawfully holding or exercising a franchise or privilege, and to oust or exclude them therefrom." These are the names of the defendants: H. O. Havemeyer, F. O. Matthlessen, John E. Searles, Jr., Julius A. Stursberg, Theodore A. Havemeyer, Joseph B. Thomas, John Jurgenson, John G. Parsons, Charles H. Senff and

John E. Parsons appeared in behalf of the company. The petitioners' case was argued by General Roger A. Pryor, George H. A STEAMER DISREGARDS A BARK'S WARNING. The bark Rebecca Crowell, Captain Feyler, arrived at this port yesterday from Auckland, New-Zealand, after a passage of ninety-two days. On last Friday afternoon, off Barnegat Light, the captain encou a dense fog. A steamer's whistle was heard and re plied to. The signal was, however, disregarded and the steamer crashed into the bark on the starboard bow, carrying away the bark's foretopgallantmast and all the standing rigging attached. The forecastle deck and the whole forward portion of the bark also sustained damage. The steamer, which was a two-masted schooner, and evidently a passenger boat bound south, continued on her course, neither stopping to see what damage was done nor to render assistance if required.

From the steamer's course the captain of the bark thought she was bound to Savannah, but it is not known to what line the steamer belongs. The Rebecca Crowell is consigned to R. W. Ropes & Co., and her cargo of gum to Brown Brothers & Co.

ABSURD STORIES ABOUT THE SERVIA'S LOSS. The Cunard steamer Servia, which was reported by cable from London as having been sunk on her passage from Liverpool, arrived at the bar early yesterday morning and was at her dock by 9 a. m. As far as could be learned, all on board were well, and there was not the slightest foundation for the rumor which caused much anxiety to persons having friends on board the ship. The officials of the Cunard Line in this city stated that the ship had only been detained a few hours by fog and was not behind her regular time of arrival. Vernon H. Brown, the company's agent, stated that he had no idea who cir-culated the report of her loss and said that the repre-sentatives of the company here had no anxiety as to the safety of the ship.

LIVELY TRADING IN THE COFFEE MARKET. There was considerable excitement on the Coffee Exchange yesterday, owing to the sudden rise in prices and consequent activity in the market. The mounted to 50 points, or half a cent a pound. The advance was in sympathy with reports by cable announcing better prices in the Rio and Havre markets, and as there is a large "short" interest in the market, the "bulls" took advantage of the opportunity to squeeze the "shorts." The transactions amounted to 164,500 bags.

A FATHER SITS ON HIS CHILD AND KILLS IT. John Hassler, bis wife and three children arrived at Castle Garden yesterday from Hamburg on their way to san Francisco, and were taken to No. 1 Greenwich-st. by a railroad agent. The woman wrapped her infant boy, age eleven months, in a shawl and laid him on the seat. Hassler, in a fit of abstraction, sat down on the bundle and instantly killed the child. Coroner Eldman will hold an inquest.

FERRIS, TOO, LOCKED UP.

CLARK'S STORY.

Ferris was last night sent to the House of Detention in default of a \$5,000 bond for his attendance this

afternoon, when the investigation will be resumed. Mrs. Scofield was not detained, and Mr. Scofield plead

with the Coroner to have different quarters in the House of Detention assigned to him from those as-

Scoffeld's testimony was only important because it corroborated that of his wife. He knew Mr. Hatch, he said, and he also knew that Mr. Hatch was on

friendly terms with his wife and took her to the the-atre sometimes. He did not object to his wife hav-

ing such social relations with her broker, but he de-

geant Schmitberger repeated what the Scoffelds had

stated to him in the Nineteenth Precinct Police Sta-

being less complete. "Malame Fanny," a queer little buxom Frenchwoman, with bright yellow locks peeping

out under the overshadowing rim of a huge, black top-heavy bonnet, testified to what had happened in

her restaurant in West Twenty seventh-st. She proved

in itself was valuable only because corroborative. FERRIS DEEPLY IMPLICATED.

Ferris, apparently much flurried, employed him to watch the movements of Mrs. Scofield and Mr. Hatch, and gave him a \$10 bill and two cigars. Mrs. Sco-

field was then recalled, and took the stand with a

weary look on her face. The jurymen worried her

till she fairly lost her temper. They asked her the

same questions over and over again, as to what doors

had been locked in her house and what had not, and so forth; and Coroner Levy at last advised them to

go up and take a look at the house. Mrs. Scoffeld

said that she was shocked to hear that Mr. Hatch and

she had been dogged by a detective. "I am over-whelmed with grief and confusion," she aided.

The jurors then visited No. 64 West Twentieth-st.

Their visit was well timed, for they fed two canaries

and a cat that were found in an advanced stage of

starvation. An immense crowd gathered without while the jurymen rambled from room to room within,

finding here a hairpin and there a suspicious butter-

knife, and in another corner a loaf of mouldy bread

that looked as if it contained a mystery. The jury-

men appropriated various odds and ends to give to the Coroner, among them a little diary with the en-

try in January, 1888, that an individual called Miles or some such name would dine with his "beloved Edna" on that date. Edna is supposed by the jury to be none other than Mrs. Scofield.

THE JURY BEGINS TO SEE LIGHT.

The conclusion that some members of the jury have come to is that Ferris was in hiding when Mr. Hatch

went home with Mrs. Scoffeld and that he scared Mr. Hatch out of the window and caused him to

jump from the roof of the extension to the tree. David C. Ferris was examined when the jury returned

long story about his relations to Mrs Scofield for the last ninetoen years. He repeated again and again

THE MAYOR AND THE SUBWAYS.

HE WANTS THE WIRES PUT UNDERGROUND. STILL PROBING AT THE HATCH MYSTERY.

A LETTER TO MR. BEEKMAN URGES IMMEDIATE THE JURY'S SUSPICIONS ABOUSED BY DETECTIVE ACTION AGAINST THE COMPANIES. Mayor Hewitt yesterday sent the following letter Coroner Levy and the jury engaged in the solution of the Hatch case spent nearly seven hours yesterday on the task. That time was consumed in the examination of five new witnesses, in the re-examination of Mrs. Scofield and in visiting the house at No. 64 West Twentieth-st. where Mr. Hatch met his death.

to Corporation Counsel Beekman, giving his reasons for not ordering the Commissioners of Public Works to cause the poles and wires of the electric companies to be removed, and suggesting that proceedings be begun in the courts to compel the companies to transfer their wires to the subways so far as they have been provided:

Sir: Some time since I was requested by the Board

of Electrical Control to give an order to the Commissioner of Public Works to cause to be removed by the Bureau of Encumbrances certain poles and electric wires which were specified in the resolution. On reference to the statute I find that no duty is imposed upon the Mayor, but there is a duty imposed upon the Commissioner of Public Works, provided the Mayor shall give him the written order to remove the poles and wires. The giving of the order, therefore, under the statute is purely discretionary with the Mayor, and before deciding to give such an order I inquired of the Commissioner of Public Works whether he had any means at his command to execute the order, if given. To this question he replied that he had no such means, and that the amount appropriated by the Board of Estimate and Apportionment was all intended for other purposes, and would be absorbed in the execution of the work for which the appropriations had been originally re-

not taken any steps to remove the poles and wires which they have been required to transfer to the subways so far as completed. Inasmuch as the Commissioner of Public Works cannot execute an order to remove these wires and poles, and as any attempt to do so would probably Edward A. Clark, an officer of the Nineteenth Police Precinet, employed in detective service at the Coleman House, said that on Monday evening Mr. caused by the high tension current which would be there discharged into the streets, I suggest that proceedings shall be taken in the courts to compel the electric light companies to comply with the notice which has been served upon them by the Subway Commission. I suppose that where a specific duty is enjoined the courts will grant a mandamus to compel compilance with a lawful order. I am exceedingly anxious that these wires should not be allowed to remain suspended in the streets any longer than is absolutely necessary for the purpose of supplying the lights required by the contracts made with the city, and I have done all in my power to urge on the construction of the subways in order that the transfer might be made to a very considerable extent before the close of the present year. I invite your prompt attention to the subject, therefore, and trust that you will see your way clear to take the proceedings indicated. Yours respect ABRAM S. HEWITT, Major.

Eger, who had occupied the first sear, stated that he had been examined as a juror in the Sharp case and had been disqualified. He was excused. Many proposed jurors were excused because they knew some of the persons connected with the case, and many others because of opinions too strong to be overcome by evidence, or ecause they were non-residents. He was a much surprised man when told that he would be held in \$5,000 bail, and his lawyer, Jerome Buck, after protesting because the Coroner came to this resolution so late in the day, said that his client would make no attempt to find a bondsman that night.

In accordance with an order issued by Chief Justice McAdam, Mrs. Scoileld appeared in the City Court vesterday to be examined in supplementary preceedings at the suit of B. L. Solomon's Sons, updoisterers, on a judgment obtained by them against her on October 14, 1885, on which execution was issued and returned unsattsized. On account of Mrs. Scoiled having to attend the inquest the examination was postponed for one week. URGING IMPROVEMENTS AT QUARANTINE. Health Officer Smith held a consultation with Mayor Hewitt yesterds regarding the bill which has passed the Legislature and is now in the Governor's hands appropriating \$250,000 for the improvement of Quarantine. Dr. Smith said that it was all im portant that the work contemplated in the act should be pushed forward without delay. With 3,000 immigrants arriving dally it was impossible to eximmigrants arriving daily it was impossible to exaggerate the necessities of the situation or the perils of the coming season to the city of New-York and the country generally in absence of an efficient quarantine. Mr. Hewitt said that he would write a letter to the Governor and urge him to sign the bill without delay. The commission provided in this act, under whose authority the appropriation is to be expended, consists of the Mayors of New-York and Brooklyn, the Health Officer of the Port, and state Engineer and the Quarantine Commissioners. of conducting it both before and after A. T. Stewart's partment for the two year, before Mr. Stewart's death?

Stewart & Co. since June, 1870. He recognized his signature as a witness to the codicil of May 31, 1882, and gave an account of the signing of the paper without bringing to light anything new in connection with it, except that he was sure Mrs. Stewart read it, on account of a habit she had of moving her head from side to side in following the lines when reading.

Under Mr. Choate's cross-examination the witness said that the house No. 1 West Thirty-fourth-st. be longed to Mrs. Stewart's estate and he had lived in its since 1881. He had not paid the rent personality, but his father had and he had seen it entered in the books of his account with Mrs. Stewart. Mrs. Stewart herself first suggested his living there.

At 4 o'clock the court took a recess till 10:30 this moruing. The postponed fourth annual field meeting of the Berkeley Athletic Association at the Manhattan Athletic Club's grounds attracted a good many people yesterday despite the rainy weather. The association's record for one-mile running was lowered 17 seconds; the baseball was thrown more than 15 feet further than any Berkeley lad ever before succeeded in doing, and H. C. Matthews threw the hammer 65 feet 3 inches, while the record made in 1886 is but 65 feet 2 inches. The one-mile walking race records were also improved.

The Bolsterous Atlantic

Is a terror to timid voyagers, scarcely less on account of the perils of the deep than the almost certainty of sea sickness. The best curative of mai de mer is Hostetter's Stomach Bitters, which settles the stomach at once and prevents its disturbance. To all travellers and tourists, whether by sea or land, it presents a happy medium between the nauseous or ineffectual resources of the medicine chest, and the problematic benefit derivable from an unmedicated alcoholic stimulant, no matter how pure. The jarring of a railroad car often produces stomachie disorders akin to that caused by the rolling of a ship. For this the Bitters is a prompt and certain remedy. The use of brackish water, particularly on long voyages in the tropics, incyltably breeds disorders of the stomach and bowels. At the close of the proceedings before the Surrogate the counsel proceeded to the Supreme Court, Special Term, before Justice O'Brien to argue a motion made on behalf of ex-Judge Hilton to strike out portions of the answers of the principal legateca who are codefendants with him and his fallow-executor Charles J. Clinch, in a suit brought against them by Sarah N. Smith. In this action the piaintiff asks that the deeds of transfer of property of the Stewart estate, given to ex-Judge Hilton be declared fraudulent and void and he set aside: that the executors be removed and make an accounting; that a receiver be appointed and that a distribution be made according to the provisions of the will. Mr. Root stated that the papers were voluminous and that the hearing would occupy several hours. After consultation with the counsel Justice O'Brien set the case down for Saturday. Hestetter's Stomach Bitters mixed with impure water nulli-fies its impurities. Similarly is counteracts malarial and other prejudicial influences of climate or atmosphere, as well as the effects of exposure and fatigue. Use it for kidney complaints, rheumatism and debility.

WRITS OF HABEAS CORPUS GRANTED TO THE IMPRISONED HATFIELDS AND THE
INDIANA FORGERS.
Washington, May 14.—The Supreme Court to-day denied the application for a rehearing of the telephone case.
This application was made by the People's and Overland
Telephone Companies, who claim that Drawbaugh and
not Bell was the first inventor of the telephone. Justice
Miller announced the decision of the Court denying the
application for a rehearing. He simply said that as
none of the three Justices who had concurred in the
opinion of Chief Justice Waite upholding the validity of
Bell's patent had requested a rehearing, and that as it
was the settled rule of the court not to grant rehearings

Beil's patent had requested a rehearing, and that as it was the settled rule of the court not to grant rehearings unless this were done, the application must be denied. In anticipation of a decision upon this motion, the court room was crowded.

The court rendered an opinion sustaining the decision of the court below in the case of Piliont Mahon, appellant, against Abner Justice, jailor of Pike Cennty, Kantucky, This is an application for a writ of habeas corpus, arising out of the celebrated Hatfield-McCoy vendesta, and is brought here on appeal from the Circuit Court of the United States for the District of Kentucky, which declined to grant the writ. Mahon, who is a citizen of United States for the District of Kentucky, which de-clined to grant the writ. Mahon, who is a citizen of West Virginia, was indicted in 1882 by the Circuit Court of Pike County, Kentucky, on three charges of wilful and deliberate murder. In September of last year the Governor of Kentucky made a requisition upon the Gov-ernor of West Virginia for the surrender of Mahon to answer the indictments found against him, and appointed Frank Philips an agent to bing Mahon into the State of Kentucky when arrested under the requisition. The Governor of West Virginia refused to comply with the requisition, and in January last Phillips and others requisition, and in January last Phillips and others soized Mahon in West Virginia and fereibly carried him to Pike County, Kentucky, where he was thrown into jail, charged with murder. The Governor of West Virginia made a formal demand for Mahon's release, which was refused by the Governor of Kentucky, and application was then made for a writ of habeas corpus.

The court rendered an opinion in the case of George Benson, appellant, against Juan N. Navarro, Mexican Consul General, and the Republic of Mexico. This is an application for a writ of habeas corpus brought here by appeal from the Circuit Court of the United States for the appeal from the Circuit Cours of the California denied the application for a writ. This cours sustains that decision. This suit is known as the Patti ticket swindling case of the City of Mexico.

The court also rendered an opinion denying the application of the court also rendered an opinion denying the application.

The court also rendered an opinion denying the applica-tion of Coy and Bernhamer for a writ of habeas corpua. These cases are better known as the Indiana tally-sheet election fraud cases, and grew out of frauds alleged, to have been committed in Marion County, Indiana, in the election last November.

The court rendered an opinion on what is known as the

The court rendered an optimized of the Marshal of the District of Columbia. Callan and others were convicted in the District Police Court of conspiring to break up the business of another musician, who declined to comply with certain rules of the Musicians' Union. Callan demanded a trial by jury, and this being denied, as Callan demanded a trial by jury, and this being united, application was made, after he had been convicted, for a writ of habeas corpus, which was denied by the Supreme Court of the District of Columbia. An appeal was taken to this court, which reverses the judgment of the lower cours and orders the granting of the writ, thus releasing Callan from custody. The decision was based on the ground that the Constitution gave the persons convicted the right of trial An opinion was rendered in case No. 274. Edward Le

The court rendered a decision in case No. 1.300, Fran Harditerman, Treasurer of Hamilton County, Ohio, appellant agt the Western Union Telegraph Company, and case No 1.361, the Western Union Telegraph Company, appellant against Ratterman. In these cases, coming up on cross against Ratterman. In these cases, coming up on crossappeals from the decree of the Circuit Court for the
Southern District of Ohio, Western Division, the suit was
begun by a bill of complaint filed by the Western Union
Company seeking to be relieved from a tax imposed by the
county upon the gross receipts for messages in the county
alleging the tax to be illegal and void, as these receipts
rectained to commerce between the Steves. This court alleging the tax to be illegal and vold, as these receipts pertained to commerce between the States. This court holds that a single tax is invalid only in proportion to the extent that the receipts were derived from interstate commerce. The decision of the Circuit Court is affirmed.

A decision was announced in case No. 267, William H. Robertson, Collector, gat. B. F. Downing and others. In error to the Circuit Court of the United States for the Southern District of New-York.
